

Profile Summary

Full-stack developer skilled in MERN stack, REST APIs, and scalable web applications. Solved 680+ DSA problems and built real-time systems supporting 100+ concurrent users.

Technical Skills

- Languages:** C++, JavaScript, C, HTML/CSS
- Frontend:** React.js, TailwindCSS, Responsive Design
- Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- Databases:** MongoDB, MySQL, Redis
- Concepts:** Data Structures and Algorithms, Object-Oriented Programming, System Design Basics
- Tools:** Git, GitHub, Postman, Vercel, Render, VS Code

Projects

1. Forever – Full Stack E-Commerce Platform

MERN — Stripe — JWT — Cloudinary

 - Application:** Built a full-stack e-commerce web application supporting **50+ products** and multiple user workflows including browsing, cart, and checkout.
 - Payment Integration:** Implemented Stripe payment processing and JWT authentication, improving transaction reliability and reducing failed payments by **20%**.
 - Admin Dashboard:** Engineered a role-based admin dashboard reducing manual errors by **15%** and improving order processing efficiency.
 - Admin:** [forever-admin-green-five.vercel.app](#)
 - Client:** [forever-frontend-woad-nine.vercel.app](#)
2. Deepseek Clone – AI Chat Interface

Next.js — Clerk — OpenAI API

 - Chat System:** Delivered a conversational AI system using OpenAI APIs handling **real-time responses under 1–2 seconds**.
 - Authentication:** Created secure user authentication and session management using Clerk for reliable access control.
 - UI Improvements:** Improved UI responsiveness, reducing perceived latency and reduced delay.
 - Deployment:** [deep-seek-inky.vercel.app](#)
3. Real-Time Chat Application

MERN — Socket.IO — Redis

 - Real-time System:** Structured a real-time chat application that supports **100+ concurrent users** using WebSockets .
 - Latency Reduction:** Reduced user presence lookup latency by **30–40%** using Redis for in-memory data storage.
 - APIs:** Designed secure REST APIs with JWT-based authentication and handled **1000+ API requests/day** during testing.
 - Real-Time Features:** Added event-driven architecture enabling real-time messaging, typing indicators, and user presence tracking.
 - Live:** [real-time-chat-application.vercel.app](#)

Experience

- Coding Educator

Codingal

 - Teaching:** Conducted live coding classes for students, teaching fundamentals, problem-solving, and logical thinking.
 - Curriculum Delivery:** Delivered structured lessons in programming concepts including Scratch, Python, HTML/CSS, and introductory web development.

Education

- Dr. B.R. Ambedkar National Institute of Technology, Jalandhar

2023 – Present

B.Tech in Information Technology

CGPA: 8.32/10

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Computer Networks, Database Management Systems

Achievements

- Solved **680+ problems** on LeetCode covering arrays, graphs, dynamic programming, and greedy algorithms.
- Achieved LeetCode rating of **1523**, ranking in top ~15% globally.
